Selling solar kits without batteries and inverters can significantly reduce the retailer's costs. However, it is important to note that batteries and inverters are two of the most expensive pieces of solar equipment. Misleading customers by not including these components in the "complete" kit may not be ethical.

The best way to gauge how many solar panels you need, is to understand and define the power load needed from this system. Power is measured in Watts, and capacity is commonly measured in Watt-hours (multiplying power output in watts by the required number of hours of operation multiplied by a safety factor of 1.5-2).

Amazon : Solar Panel Kit With Inverter, Solar System For RV, Home Solar Power System Complete Kit, Solar Charge Controller, 3000W Solar Inverter, ... AC 220V/110V for your choice Output frequency: 220V 50Hz, 110V 60Hz Max power: 3000W Rated Power: 300W (please ensure that the total Rated Power of the connected device is <=300W). ...
