Pads designed for 20-40% more stopping power over O.E. brakes or standard replacements; Double-disc ground, machined finish, mill-balanced and center-spit core casting rotors ... For a more responsive and durable brake system ...

For us Honda owners we will have to deal with the universal adapter (#1101). It is still a great product, but makes for a potentially messy solution. I suspect the reason Motive Products do not have an adapter fitting for Honda is because the design of the Honda master cylinder reservoir makes it complicated. Honda uses a twist tab lock design.

2007 honda accord power brake system

Honda Accord Hybrid Used Value. We've taken a look on Car Gurus to gauge the resale value of a Honda Accord Hybrid, below are typical asking prices for each model year. According to Car Edge, a Honda Accord will depreciate 21% after 5 years and have a 5 year resale value of \$29,394. Note: Used model prices will vary depending on trim level.

I just threw out some old part store brake fluid which was in a 500 mL bottle. ATE comes in a 1 L bottle. I had a done a full brake fluid change in the past on a non-ABS car, and it took about half of the ATE bottle. So I figured 2-3 Honda bottles (~600-900 mL) would probably be enough for the ABS system of my Accord.
