About The Energy Storage Systems Safety and Reliability Forum (ESSRF) is an annual event hosted by Sandia National Laboratories. The forum focuses on the current state of energy storage safety and reliability by providing a platform for attendees to explore key challenges, opportunities, and potential solutions. The event features presentations and interactive discussions with a [...]

Acceleration on sustainable development and climate solutions is clearly needed, for which partnerships are key. The upcoming edition of the World Sustainable Development Summit (WSDS) will be held under the theme "Partnerships for Accelerating Sustainable Development and Climate Solutions" from 5th to 7th March 2025.

Energy and climate-related policies have been accelerated by both state and federal governments, and for many companies the time feels right to invest in energy storage. This event gathers together investors, developers, IPPs, grid operators, policymakers, utilities, energy buyers, service providers, consultancies and technology providers under one roof.

This forum will provide an overview of work in, and creating the future of, energy storage safety and reliability. Attendees span academia, government, manufacturers, utilities, and first responders. This year's meeting will be held at the Sheraton Puerto Rico Resort & Casino in San Juan, Puerto Rico from April 15-18, 2025.
