

The Renewable Energy Act of 2008 provides the legal and institutional framework necessary for harmonising policies on the development of renewable energy technologies. The Act aims to enable the Philippines to move rapidly towards its goal of being 60% energy self-sufficient by 2010 by developing and utilising resources such as solar, wind ...

Renewable energy comes from unlimited, naturally replenished resources, such as the sun, tides, and wind. Renewable energy can be used for electricity generation, space and water heating and cooling, and transportation. Non-renewable energy, in contrast, comes from finite sources, such as coal, natural gas, and oil.
