ARLINGTON, Va., Oct. 28, 2021 /PRNewswire/ -- On October 27, 2021, Fluence Energy, Inc. ("Fluence") announced the pricing of its initial public offering of Class A common stock, which valued Fluence at approximately \$4.7 billion. Fluence, an AES joint venture with Siemens, originated from AES' work to conceive and test the world's first lithium-ion energy storage ...

Today, over 4 GW of energy storage is expected to be contracted and brought online by 2023. Fluence is helping customers bring nearly 1 GW of energy storage onto the California grid in 2021 alone. 4. What it means for the global adoption of energy storage. The AES Alamitos BESS made energy storage part of the power supply conversation.

It's the world's first stand-alone energy storage project for local capacity. It's the world's first grid-scale battery energy storage system to receive a long-term power purchase agreement (PPA). It's the first standalone battery energy storage system specifically procured to replace a natural gas peaker plant in the U.S.

However, Google set this goal knowing that a 24/7 carbon-free energy solution, where carbon-free resources power every hour of every day, didn't yet exist. AES and Google partnered to develop a first-of-its-kind 24/7 carbon-free energy solution where AES will supply Google's Virginia data center campus with 100% clean energy day and night.

AES Energy Storage today unveiled a portion of its deployment roadmap for AES Advancion™ Energy Storage Solutions, which includes the addition of battery-based storage resources across the US, South America, and Europe. Projects in construction or late stage development are expected to deliver 260 MW of interconnected battery-based energy storage, ...

Albemarle is a future-proof energy storage stock because it shifts with the advancement of technology. People are moving away from flooded gel energy storage batteries. ... AES Corporation provides energy storage systems to homeowners and business leaders worldwide. As one of the companies in the leading position, the company meets customer ...

Chile was the first country to join AES in accelerating the global energy transition through energy storage. In fact, we installed the world's first utility-scale energy storage system in the Atacama Desert back in 2009. The success of Chile's adoption of energy storage solutions- by solving grid challenges, integrating renewables ...

AES is the world leader in lithium-ion-based energy storage, both through our business project and joint venture, Fluence. We pioneered the technology over one decade ago, and today almost half our new projects include a storage component. Energy storage is a "force multiplier" for carbon-free energy.
