The 100 Watt Monocrystalline Solar Panel from AIMS Power is a versatile performer constructed with high quality tempered glass and a stronger surface to protect from harsh weather conditions. The solar cells used in the panel are high transmission and the textured glass allows for more efficient solar power harvesting.

The 330 Watt Monocrystalline Solar Panel from AIMS Power is a versatile performer constructed with tempered glass and a stronger surface to protect from harsh weather conditions. The solar cells used in the panel provide high light transmission and the textured glass allows for more efficient power solar harvesting.
