

Alliant energy for kids renewable energy

Wind energy is a key part of our diverse energy mix. It allows us to deliver safe, reliable, affordable energy to nearly 600,000 homes without emitting greenhouse gases. In addition, wind provides significant economic benefits to our customers and the communities we serve.

A hugely rewarding way for our customers to embrace clean energy solutions is to lease land to Alliant Energy for renewable energy projects. You'll be helping yourself and your community by providing reliable energy, and you'll be helping the environment by sustaining the environmental health of our planet.

We offer three renewable solutions designed to meet your sustainability goals. These programs can be combined to achieve your desired mix of renewable energy. Whether you are just getting started or you're ready to transition to 100% clean, renewable energy, we have solutions to make your vision a reality.

Alliant Energy customers can call the Renewable Energy Hotline at 1-800-972-5325, 8 a.m. - 4:30 p.m. Monday through Friday. More information. Rural Energy for America Program: Renewable Energy Systems & Energy Efficiency Improvement Loans & Grants; National Renewable Energy Laboratory's Solar Data webpage

Alliant Energy builds a stronger community with Habitat for Humanity Our company contributes to Habitat for Humanity in many ways including recent building events with Wisconsin's Habitat for Humanity of Dane County (HHDC) and Iowa's Cedar Valley Habitat for Humanity (CVHH).

Interstate Power and Light Company (IPL) and Wisconsin Power and Light Company (WPL) are Alliant Energy's two public energy companies. Alliant Energy is a component of Bloomberg's Gender-Equality Index and the S& P 500. For more information, visit [alliantenergy](#) and follow Alliant Energy on LinkedIn, Facebook, Instagram and X.

Cartoonist Mark Knight considers Australia's move from fossil fuels to renewable energy sources as the goal of zero emissions reignites the nuclear energy debate alongside wind, water and sun. Mark Knight. 5 min read. December 7, 2023 - 6:00PM. Kids News. Print. Mark Knight's wind turbine versus nuclear radiation cartoon considers the renewed ...

Alliant Energy will own, operate and maintain the Grinnell Solar Park as part of its Alliant Energy's Customer-Hosted Renewables program. "This new solar park showcases the benefits of renewable energy and a new source of reliable energy for the community," said Amanda Accola, senior key account manager for Alliant Energy.

Through the Alliant Energy's Customer-Hosted Renewables program, customers can lease their land to Alliant Energy to construct, operate and maintain a solar project. Rock County is leasing the land for both projects to Alliant Energy and expects to receive both lease payments and renewable energy credits from the dedicated facility. Alliant ...

CEDAR RAPIDS, Iowa (Feb. 13, 2024) - The Cedar Rapids Community Solar garden is now generating renewable energy for the more than 300 Alliant Energy customers who subscribed to the utility's first community solar garden in Iowa. The 4.5-megawatt garden is Alliant Energy's largest operational solar project to date in Iowa. Alliant Energy began constructing the project ...

In a similar way, energy companies are beginning to add battery systems to the energy grid that store large amounts of energy for later use. Long duration energy storage (LDES) is becoming a common type of storage technology energy companies use to store and deliver 10 or more hours of electricity.

Alliant Energy powers the community - Clean, renewable energy helps power homes and businesses. Receive a bill credit - Receive a credit based on solar production. Watch this video and hear why the Sisters of St. Agnes are subscribers in our first community solar garden.

In addition to demand response programs, energy companies invest in renewable energy and advancing technologies to balance energy generation with customer demand. For example, battery storage systems store energy, typically from renewable sources when they generate an excess, to use later when it's needed most.
