

Aus solar energy group review

Who are aus solar energy group?

Aus Solar Energy Group provide solar power services for both residential and commercial use, all solar power systems installed by Aus Solar Energy Group meet clean Energy council installation standards.

Are aus solar panels a good company?

Good job.... We had panels installed by AUS Solar Energy Group and were very happy with the job done. The initial contact was with their sales guy, Niall Garrett, who explained everything to us very well. Just as we were about to sign, I happened to ask about the panels and inverter being installed.

Where can AUS solar energy group install solar energy?

At Aus Solar Energy Group, we service areas in Victoria, New South Wales, Tasmania, Western Australia and South Australia. Some suburbs in NSW where we commonly conduct solar energy installation for residential and commercial properties include:

Why should you choose aus energy solar?

If you're committed to helping the planet by reducing greenhouse gases, a tailored residential solar system from Aus Energy Solar is for you. As a solar retailer and installer, Aus Energy Solar is your best option if you are searching for solar professionals with specialised know-how and experience.

What do you like most about aus solar?

AUS solar team has immense knowledge around different brands and guided me to pick the right product. I was happy with their installation team as well who was quick and know what they are doing. Very professional and got the job done as planned. Always went the extra mile to explain what I was getting and if anything changed.

Who is solar energy group installations?

Solar Energy Group is a Solar Power Installation company based in Melbourne and serves VIC. Here are their reviews as submitted by visitors to SolarQuotes No images of Solar Energy Group Installations.

Aus Solar Energy Group is one of the most innovative and fastest growing companies in the clean energy field. It is our goal to help Australians make a difference to the environment and at the same time, invest in their future without compromising their existing lifestyle.

Starting 1 November 2024, the NSW Government will launch the NSW solar battery rebate as part of the Peak Demand Reduction Scheme (PDRS). This program aims to help homes and businesses with rooftop solar systems maximize their energy efficiency and reduce electricity costs by installing battery storage and connecting to a Virtual Power Plant (VPP).
