Our dedicated engineering team collaborates closely with you, our valued customer, to tailor specifications and provide design support, regardless of complexity, ensuring your finished product meets exact ...

The other generator set serves as emergency standby. The repower project also included a new PowerTech 6068SFM85 engine to power the bow thrusters. Rich McGovern, engine representative for Bell Power Systems, worked with Bill Jette, vice president of marine operations and facilities for NYCL, from the very beginning of the repower process.

New to the John Deere engine lineup, the JD4 provides up to 116 kW (156 hp) of power in a reduced package. This compact but mighty engine will be ideal for industrial and gen-set applications. The JD4 features a 20% to 30% reduction in package size and a more than 100 kg (220 lb) reduction in weight compared to the John Deere 4.5L single turbo engine.

Bell Power Systems is proud to be a sponsor of The Maine Lobstermen's Community Alliance Music, Masts, and Lobster Traps benefit event. A celebration Maine's lobstering heritage will culminate in a late afternoon
