Who is the best solar company?

Go solar and reduce your energy bills. Click on your state below to get a free quote. Why we chose this company: SunPower is our choice for the best solar company because of its nationwide availability and warranty coverage. Unlike other solar companies, SunPower is available in all 50 states.

Which solar company offers the best & most expensive solar panels?

After reviewing hundreds of solar panels, we found that SunPower offers the best (and most expensive) solar panels. Choosing the best solar panel can feel overwhelming, but it's easier than you might think. If you select a quality solar installer, in most cases they'll install quality solar panels. Many companies offer great solar panels.

Which solar panels are best?

Its newest series, the Alpha Pure-R, has an impressive temperature coefficient compared to other panels at 0.24%/°C, making them the best choice if you live in a consistently hot area. The Alpha Pure-R panels are the second most efficient panels on our list at 22.3% efficiency. REC offers a strong bang for the buck at an average of \$2.68/W.

How do I choose a solar company?

Solar companies that are licensed, insured and hold certifications take their business seriously. Look for companies that have NABCEP Certified professionals or certified electricians on staff and are properly insured, so their workers, and you, are protected. Not everyone has thousands of dollars to spend on a solar panel installation.

Who is the best solar roofing company?

Why we chose this company: With multiple options to choose from, Green Home Systems is our choice for the best solar roofing company. Customers can purchase solar panels, shingles or tiles from Green Home Systems either in cash or through a loan -- no solar lease or PPA financing options are available.

Who is the best regional solar panel installer?

Why we chose this company: Operating primarily in the northeast, Trinity Solar is our choice for the best regional solar panel installer. It serves nine states, including Maryland, New York, Pennsylvania and Florida. Trinity Solar was founded in 1994 and is the largest privately-held residential solar company in the U.S., with over 1,900 employees.

The company offers full-service solar panels and installation services in Florida including: solar design and engineering, solar sales and consultation, and the entire installation process. The company specializes in providing solutions to businesses and communities specifically focusing on making clean energy accessible and affordable to everyone.

According to the company's LinkedIn, the company is just two years old, starting in 2019. While the company has impressive accreditations and customer reviews, two years is not that long. However, for the number of years the company has been open, Seapoint Solar's growth and success are quite impressive.

What this means for consumers is that there really isn't a one-size-fits all, true "best solar panel". Even the video that we made, while it does provide some valuable insight into the relative growth of these companies, only looks at one dimension of the competition between panel manufacturers. Conclusion: Top Solar Panel of 2019 & 2018
