With that in mind, here's our ranking of the top five solar companies in Irvine, CA based on ratings, reviews, and more. Sunergy is the #1 Rated Enphase Platinum Installer in CA. We strive to give every customer a personal "Mom and ...

How much does solar cost in Irvine?

The average price per watt of solar power in Irvine,CA is \$2.33/W. These prices are before incentives. After the federal solar tax credit,the final cost will drop by 30%,down to \$12,369 for a 7.57 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

What is a good APR for a solar loan in Irvine?

Recent interest rate hikes have bumped solar loan APRs above 5.99%, but we have seen some providers offer as low as 30-year, 3.99% loans. Getting quotes from different installers is essential to getting the best rates possible in Irvine.

Are solar incentives a good idea in Irvine?

Solar incentives and rebates can cut the cost of installing solar in Irvine by thousands of dollars. The most significant incentive is the 30% federal solar tax credit,available to any taxpayer in the country when they purchase solar panels or battery storage.

Is California a good place to install solar panels?

California is ranked No. 1 among the top states for solar power installations,according to the Solar Energy Industries Association (SEIA). That's largely because the state requires all new residential construction to include solar panels. As a result,there are many solar installers in California,but it's important to pick the right one.

Do solar panels save money in Orange County?

Yes,solar panels can save you a lot of money in Orange County. In fact,if you pay in cash for your solar installation,you can expect to save more than \$62,000 over the course of 20 years for an average-sized system. What's the difference between national and local installers?
