

What is the best solar incentive in Georgia?

The best incentive for residents in Georgiais the Residential Clean Energy Credit, formerly known as the federal investment tax credit (ITC). This incentive can reduce the cost of a solar panel systemby 30%. The entire system, including all the equipment, labor, permitting, and sales tax, qualifies for the ITC.

Do Georgia Utility companies offer solar rebates?

There are a number of other rebate programs offered by Georgia utility companies that can help you afford electric appliances that would make sense to pair with a solar system. Sawnee EMC gives its customers rebates for projects including insulation, electric water heaters and heat pumps.

Does Georgia have a solar tax credit?

State incentives: While Georgia does not have a state-wide solar tax credit, some local incentives and programs can reduce the cost of solar installation. The Database of State Incentives for Renewables &Efficiency (DSIRE) offers detailed information on available incentives in Georgia.

Are solar panels expensive in Georgia?

Yes, absolutely. Solar is relatively expensive in the area due to the high energy demand, but the solar incentive programs available in Georgia help make converting to clean energy far more accessible. The typical upfront cost of a solar panel system in GA hovers around \$36,190, around \$6,000 higher than the national average.

How much does a solar system cost in Georgia?

Top solar installers in Georgia can cost around \$2.77 per watt(before incentives) or around \$16,620 for a 6kW solar system. 63% of Southeast U.S. residents, when asked in the Forbes solar survey, said they'd be very likely or somewhat likely to recommend solar installation based on their positive experience.

How do I choose a solar company in Georgia?

Solar companies that are licensed, insured and hold certifications take their business seriously. Look for companies that have NABCEP Certified professionals or certified electricians on staff and are properly insured, so their workers, and you, are protected. In Georgia, a solar installer must be associated with a licensed electrical contractor.
