

Biden on solar energy

By integrating solar energy systems into existing landscapes, dual-use PV has the potential to minimize land-use concerns. There have been 63 domestic manufacturing announcements across the solar supply chain since the beginning of the Biden-Harris Administration, including more than 40 of which have been announced since August 2022.

SAN FRANCISCO, CA - Today, as the Biden-Harris Administration celebrates Earth Day, the U.S. Environmental Protection Agency announced the Executive Office of the State of Arizona has been selected to receive \$156,120,000 through the Solar for All grant competition. With this funding, Arizona will develop long-lasting solar programs that enable low-income and ...

WASHINGTON, D.C. -- As part of President Biden's Investing in America agenda, the U.S. Department of Energy (DOE) today announced a \$71 million investment, including \$16 million from the President's Bipartisan Infrastructure Law, in research, development, and demonstration projects to grow the network of domestic manufacturers across the U.S. solar ...

SAN FRANCISCO, CA - Today, as the Biden-Harris Administration celebrates Earth Day, the U.S. Environmental Protection Agency (EPA) announced the California Infrastructure Economic Development Bank (Ibank) has been selected to receive \$249,800,000 through the Solar for All grant competition. With this funding, the Bank will develop long-lasting ...

Executives, officials and major investors in First Solar, the largest domestic maker of solar panels, donated at least \$2 million to Democrats in 2020, including \$1.5 million to Biden's successful bid for the White House.

WASHINGTON, D.C. -- As part of President Biden's Investing in America agenda, the U.S. Department of Energy (DOE) today announced 12 projects, whose work will span more than 13 states, selected for negotiation to launch training partnerships that expand the solar energy workforce in underserved and underrepresented communities, as well as create career ...

President Joe Biden has marked Earth Day by announcing \$7 billion in federal grants to provide residential solar projects serving 900,000-plus households in low- and middle-income communities. ... Solar energy is gaining traction as a key renewable energy source that could reduce the nation's reliance on fossil fuels. Not only is it clean ...

President Biden signed the Inflation Reduction Act into law on Tuesday, August 16, 2022. One of the many things this act accomplishes is the expansion of the Federal Tax Credit for Solar Photovoltaics, also known as the Investment Tax Credit (ITC). This credit can be claimed on federal income taxes for a percentage of the cost of a solar photovoltaic (PV) system.
