

Big portable battery

The mAh spec is a measurement of power over time -- the higher the mAh the more power the battery contains. To fully charge a phone you'll need 3,000 to 5,000 mAh. There is a big price jump between 10,000mAh and 20,000mAh power banks for camping, so if you're not sure which one you want to buy, it's good to consider what your needs are ...

When choosing a portable power bank, various features distinguish the best from the rest. Here are some important aspects to consider: Capacity: This indicates how much power the bank can store and thus determines how many times you can charge your devices. If you use high-capacity devices like tablets or need multiple charges, look for a power bank with a higher capacity, ...
