Each will require many, many trillions of dollars of capital over the next decades. Simply put, the world is mobilizing to achieve net zero targets, energy security, supply chain resiliency and to meet exponentially growing data demand. Our infrastructure, renewable power and energy transition businesses sit at the epicenter of these trends.

Our sustainable solutions portfolio is comprised of assets and businesses that enable the transition and includes our investment in Westinghouse (a leading global nuclear services business) and a utility and independent power producer with operations in the Caribbean and Latin America, with 303 MW of wind capacity and 118 MW of solar capacity and a combined ...
