What is a capacitor energy storage welder?

The new-designed capacitor energy storage welder uses the latest energy-gathered pulse technology, is has great welding power,the soldered dot is uniform and beautiful, no blackening. 3. The maximum output of the 801B welder is 11.6 kilowatts. It can be used for large batteries welding. 4.

How does Glitter service a battery spot welder?

Glitter services your battery spot welder to be free from defects in materials or workmanship under normal use and service for one year from the date of original purchase. The new welder is equipped with two super capacitors for energy storage and a stable power source for pulse spot welding.

What is a super energy gathered pulse welding machine?

The machine's super energy-gathered pulse technology combines with a max welding power of 36 KW to provide a reliable welding effect.

What is a portable welder?

The portable welder has a small size and light weight compared to a bulky traditional spot welding machine,allowing for easy transport while still adopting the 100-240V wide-voltage input for use anywhere you need. The actual pulse time (welding power) grade,capacitor voltage and welding current are displayed on the LED screen.

Why should you choose a professional spot welder?

The professional spot welder is suitable for individual or industrial use,unlike any other toy-grade product,it provides you with a powerful and reliable welding effect,and also adopts a safe product design,keeping you safe from battery fire danger.

Which welding pen is best for battery welding?

The well-designed and professional welding pen brings you great efficiency for battery welding work. The machine's super energy-gathered pulse welding technology combines with a max welding power of 36 KW to provide a reliable welding effect. 0.5mm nickel and 0.3mm copper (with flux) can be easily welded.

1. ENERGY STORAGE PULSE: Capacitive energy storage spot welding machine adopts energy gathering pulse technology, which has powerful welding power and uniform and beautiful welding spots. 2. HIGH POWER OUTPUT: High power output up to 12KW, which can meet the welding purpose of large single battery, and will not interfere with the AC power supply.

Product Description. Product Features. The newly designed U.S. Solid USS-BSW00005 high-frequency inversion battery spot welder equips with the two super capacitors for energy storage and power supply for pulse welding. Unlike traditional AC transformer spot welders, it is more portable and it does not cause any interference to the electric circuit, eliminating tripping ...
