

# Canadian ci energy storage project

Is e-storage a CSI energy storage company?

Previously, e-STORAGE operated as CSI Energy Storage. e-STORAGE launches with nearly 26 GWh of energy storage projects in its total pipeline and over \$1.7 billion of contracted revenues as of July 2023, up from \$1 billion in January 2023. This provides significant growth visibility for e-STORAGE over a multi-year period.

What is the largest battery storage project in Canada?

OHSWEKEN - The governments of Canada and Ontario are working together to build the largest battery storage project in the country. The 250-megawatt (MW) Oneida Energy storage project is being developed in partnership with the Six Nations of the Grand River Development Corporation, Northland Power, NRStor and Aecon Group.

Why is energy storage important in Ontario?

Ontario's electricity grid is more than 90 per cent emissions-free. Energy storage will allow the storage of baseload generation like nuclear and hydro while also supporting the integration of intermittent resources like wind and solar.

Where can I find more information about Canadian Solar?

For additional information about the Company, follow Canadian Solar on LinkedIn or visit [www.canadiansolar.com](http://www.canadiansolar.com). e-STORAGE is a subsidiary of Canadian Solar and a leading company specializing in the design, manufacturing, and integration of battery energy storage systems for utility-scale applications.

What is e-storage's biggest energy storage project in the UK?

Colin Parkin, President of e-STORAGE, commented, "We are honored to work with Copenhagen Infrastructure Partners Flagship Fund to implement the largest energy storage project in the UK. With this project, e-STORAGE will be delivering nearly 2 GWh DC of energy storage to the UK market alone.

How will energy storage affect Ontario's Energy Grid?

million tonnes, the equivalent to taking up to 40,000 cars off the road. Ontario's electricity grid is more than 90 per cent emissions free. Energy storage will allow the storage of baseload generation like nuclear and hydro, while also supporting the integration of intermittent resources like wind and solar.

Canadian Solar Inc. (the "Company" or "Canadian Solar") (NASDAQ: CSIQ) today announced that e-STORAGE, which is part of the Company's majority-owned subsidiary CSI Solar Co., Ltd. ("CSI Solar") has secured a turnkey EPC contract to supply a 98 MW/312 MWh DC Battery Energy Storage System (BESS) to the Huatacondo project in Chile.

At provincial level, the Ontario government has directed the IESO to hold procurements for up to 2,500 MW
