

# Cape town energy storage container house

Are container homes eco-friendly?

Container homes present a range of eco-friendly advantages that contribute to a greener South Africa. By repurposing shipping containers, we reduce waste and conserve natural resources. The construction process produces less debris compared to traditional homes, minimizing the strain on landfills and promoting a more sustainable approach.

Are container homes sustainable?

One of the key attractions of container homes is their ability to operate off the grid. With advancements in sustainable technologies, homeowners can enjoy self-sufficiency in terms of energy and water supply.

Who is Cape modular solutions?

Cape Modular Solutions is a privately owned company based in the Western Cape and brings over 15 years of combined experience with offsite modular buildings and container conversions. We provide our clients with a complete turnkey solution by arranging the delivery and onsite installation of services.

Can shipping containers be used as a building structure?

There are many reasons to use Shipping Containers as a building structure. One reason is that you can have your home delivered to you within 30 - 45 days from ordering. If you cannot stand the thought of building rubble and a big mess in your garden from building rubble, please consider our container homes as a viable alternative.
