

Who is centrotherm photovoltaics?

We are part of the centrotherm photovoltaics group, a leading global technology and services provider for the manufacturing of solar cells and solar silicon. We supply our technologies and process systems to major semiconductor manufacturers and leading international research and development organizations worldwide.

Who is centrotherm Elektrische Anlagen kg?

The company was founded in 1976 as centrotherm Elektrische Anlagen GmbH +Co. KG. In the 1990s the company broke into the photovoltaic business and since 2000 has been an important global player in this industry sector.

What happened to centrotherm photovoltaics?

As part of company restructuring in the centrotherm Group, the name of the photovoltaic business unit was changed to centrotherm photovoltaics solutions GmbH &Co. KG in 2004 and in 2006 became centrotherm photovoltaics AG.

Who is centrotherm Systemtechnik GmbH?

We are actively shaping a future based on innovation, sustainability and social responsibility. Centrotherm Systemtechnik GmbH is part of Centrotec Industries GmbH and is a wholly owned subsidiary of Centrotec SE, a German-based and internationally represented group of companies with almost 2,000 employees.

Is centrotherm a good company?

centrotherm with satisfactory business performance in the first half of 2024; confirmation of full-year forecast
centrotherm is one of the leading technology providers for innovative thermal processes for the semiconductor and photovoltaics industries. You are innovative, motivated and ready to take responsibility?

centrotherm photovoltaics AG, which is based at Blaubeuren, Germany, is a globally leading technology and equipment provider for the photovoltaics sector. The company equips well-known solar companies and new sector entrants with turnkey production lines and single equipment to manufacture silicon, and crystalline solar cells and modules.

With more than 40 years of industry experience, centrotherm is one of the pioneers in the photovoltaics industry, and has provided the world's most important solar cell manufacturers with process technology and integrated production solutions. With our innovative PECVD technology, we have established ourselves as a technology leader for anti-reflective coating as well as AIO ...

centrotherm international AG
centrotherm Group draws positive balance for 2021 financial year ... In addition to growth sectors such as the semiconductor and microelectronics industry, as well as photovoltaics, our innovative solutions are also being applied in new future-oriented fields such as fiber or battery production. As

a leading ...

Centrotherm Photovoltaics AG (FRA:CTNK) announced that effective today the company is changing its name to Centrotherm International. The German solar machinery maker said that following entry in the commercial register, the resolution of the company's Annual General Meeting of May 23 has become legally effective.

Company Description: centrotherm photovoltaics can't make the sun shine but it can help those who want to take advantage of the golden rays. The company, known as CTPV, provides production lines and equipment for manufacturing solar cells and films. It also offers engineering and process-technology services and turnkey production set ups.

About centrotherm photovoltaics AG centrotherm has been developing and realizing innovative thermal solutions for over 50 years. As a leading and globally operating technology group, we offer production solutions for the photovoltaic, semiconductor and ...
