

Charleston solar company

Who is the best solar company in Charleston SC?

According to solar shoppers on the EnergySage Marketplace, the top five solar installers in Charleston, SC are Olympus Home, ESD Solar, Firefly Solar & Roofing, Sunshine Saves Inc., and Southeast Energy Solutions. How many solar companies are in Charleston, SC?

How much does solar cost in Charleston SC?

The average price per watt of solar power in Charleston, SC is \$2.48/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$20,640 for a 11.89 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

Are solar panels a good investment in Charleston?

You can go with a local Charleston solar company or choose a reputable national brand. Even though solar panels are a significant upfront investment, you can lower your energy bills over the long term. The U.S. Energy Information Administration (EIA) reports that switching to solar energy enables Charleston homeowners to save about \$1,900 per year.

How many people are in a Charleston Solar System?

On average, most Charleston households consist of three people, so some solar companies may use this number to gauge how much power you need. Solar companies offer different warranties on their products and services, but you can find some common themes among the most prominent companies.

How do I choose a solar installer in Charleston?

Prior to picking an installer, get referrals, evaluate potential installers and get multiple quotes to determine the right company for you. You can go with a local Charleston solar company or choose a reputable national brand. Even though solar panels are a significant upfront investment, you can lower your energy bills over the long term.

Are solar incentives a good idea in Charleston?

Solar incentives and rebates can cut the cost of installing solar in Charleston by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage.
