Verizon Corporate Facility. Tulsa, OK Rental Generator - 1,250 kVA. Clifford Power provided a temporary generator for the Tulsa, Oklahoma, corporate facility of Verizon, a national telecommunication company that provides cellular service to over 100 million subscribers.

When brothers Ken and Tom Clifford established Clifford Power in 1985, their goal for building the business was simple: create a great place to work and provide excellent service to our customers. More than three decades later, Clifford Power has 12 locations covering five states, and our passion and excitement for our customers and employees ...

We are power experts, offering professional consulting with a focus on customer service across a five-state region in the south-central U.S. Our services include generator and power equipment sales, 24/7 service and planned maintenance for all generator makes and models, generator rental, parts, and service training.

Businesses that can't afford to be without power for even a second, such as hospitals, data centers and 911 call centers, depend on Generac for reliable, automatic standby power. For gaseous and diesel generator sets, Modular Power Systems(TM) (MPS) and Bi-Fuel(TM) systems, Generac is the trusted solution when power failure is not an option.

In April 1985, along with his father and armed with a very small financial stake, Ken Clifford opened Clifford Power Systems in Tulsa, Oklahoma. Two months later they were joined by his brother Tom. In the early years, Ken Clifford's deep technical knowledge and sales expertise proved invaluable since the three Cliffords were the company's ...
