Rodent damage can be another reason why your Chevy Colorado won't start. The animals crawl under the vehicle and bite through cables and wires. In principle, this can affect all vehicle systems such as the fuel supply, the oil supply or the power supply. The rodent damage can usually be seen quickly by looking into the engine compartment.

Swimming race timer does not start: Step 1: Make sure your start system cable is properly and securely attached. Refer to Chapter 2 or your start system manual for instructions. Step 2: Clean connectors. Refer to Page 64; Step 3: Check cabling. Refer to Page 65; Step 4: Check start system. Refer to Page 67 or your start system manual.
