Is Eon a good solar installer?

It's a good idea to look to E.ON as a potential solar installer for your home - after all, a good installer will keep down solar panel prices over time. But before you make your final decision, you'll want to find out how good E.ON's solar panel packages are, how much the solar panels cost, and what other customers have thought of the process.

Are Eon solar panels worth it in the UK?

E.ON solar panels are worth it in the UK. They're slightly better than average panels, and a typical UK household will still break even on them after in 10.7 to 15.3 years, depending on if they're an E.ON next customer or not.

Why should you choose Eon solar panels?

Harness the sun's energy with solar panels from E.ON. Embrace renewable power and reduce your carbon footprint. Includes guarantee, install and finance options.

Which solar panels does Eon use?

E.ON currently uses solar panels from JA Solar and JinkoSolar. These are both Chinese companies that now sell solar panels all over the world. However, E.ON's range of solar panels is constantly changing, as is the case with most installers, so make sure you check what they have in stock.

Where can I find solar panel reviews?

Discover our solar panel reviews and get the low down on our solar solutions. Read more customer reviews at E.ON.

Does Eon offer EV charging incentives?

Fitting of solar panels and inclusive incentives... Initial survey and fitting of solar panels and battery went well. When it came to the incentives, EV charger and special seg rates, offered as part of the deal there was no mention of having to deal with other EON departments to provide them.
