

Which energy storage system won ees Award 2023?

Munich, Germany, June 14th, 2023 /PRNewswire/-- Sungrow won ees AWARD 2023 with its liquid cooled energy storage system PowerStack, which caters specifically to the commercial and ...

What is ees Award?

The ees AWARD is presented by the organizer of international exhibition series for batteries and energy storage systems - ees (electrical energy storage). The energy award pays tribute to pioneering products and solutions for stationary and mobile electrical energy storage systems.

Is ESS PowerStack the next big thing in Europe?

Andrey Yang, ESS Sales Director of Sungrow Europe, introduced the PowerStack. He said: "The C&I energy storage market will be the next big thing in Europe. Sungrow's liquid-cooled ESS PowerStack exceeds the demand for flexibility and outstanding performance and is an ideal solution for more communities and facilities.

One award, five categories, 15 winners and an abundance of innovative and intelligent ideas, products, services and projects: ... More than 950 suppliers presented innovations from the fields of batteries and energy storage systems at ees Europe and the accompanying exhibitions (Intersolar Europe, Power2Drive Europe, EM-Power Europe ...

MUNICH, May 14, 2022 /PRNewswire/ -- Contemporary Amperex Technology Co., Limited (CATL), a global leader of new energy innovative technologies, is in the spotlight with its award-winning all-scenario energy storage solutions at the ees Europe 2022, the largest and most international exhibition for batteries and energy storage systems in Europe, which was held ...

The ees AWARD is presented by the organizer of international exhibition series for batteries and energy storage systems - ees (electrical energy storage). The energy award pays tribute to pioneering products and solutions for stationary and mobile electrical energy storage systems. The range of innovations encompasses the entire value-added ...

The ees Europe 2022, the largest and most international exhibition for batteries and energy storage systems in Europe, which was held from May 11-13 at Messe München, Munich. CATL's cutting-edge products demonstrated at the exhibition cover application scenarios of power generation, power transmission and distribution, and power consumption.
