The company also partners with Sunrun, one of our picks for top solar companies. Trinity Solar: Trinity Solar has served the Northeast for more than 28 years.

What products does a solar power company install?

It manufactures all the products it installs: panels, batteries, inverters, EV chargers, and monitoring app. This allows its products to work together seamlessly to maximize power output and efficiency. It operates in all 50 states, though not in all ZIP codes, either with its own employees or company-certified local installers.

Switching energy suppliers with solar panels doesn't need to affect your export tariff contract at all. Your old supplier can still be your licensee, and will continue paying you the same rate. No matter which energy supplier you're with, it's always worth checking to see if you could save money by switching.

Vivint Solar uses monocrystalline silicon PERC solar panels, a more efficient solar panel than the standard solar panels on the market and one of the newest types of panel technology. As for energy storage, Vivint Solar offers the LG Chem RESU10H battery backed by a 10-year performance warranty.
