

This is a 12V Battery Storage Spot Welding Machine Circuit Board. This Circuit contains an Electronic Welding Module that is the main thing in this whole product. Spot welding is welded by the principle of rapid local heating and cooling by high current. This Product is much portable and durable that it can easily carry anywhere.

Energy-storage type stud welding machine can weld stud, threaded stud, dowel to metal workpiece. During the welding process, through element point discharge energy storage capacitor discharge, discharge time, 0.001 to 0.003 seconds. Don't need gas or ceramic ring protection, penetration is about 0.1 MM.

ADP9 is a 900 Joule capacitive energy storage welding power supply. Its unique double pulse welding method can effectively solve the resistance welding problem of most precision hardware workpieces, set and record 10 groups of welding procedures, and has a special energy locking function to ensure that the welding quality will not decline due to the fluctuation of the power ...

2.The 801A adopts the latest energy-gathered pulse welding technology, it has a great welding power, the welding spot is nice and elegant, ensuring you a reliable welding effect. 3.The maximum welding power of the machine can be up to 10.6 KW meeting the needs for large-batteries welding.

Product Description. Product Features. The newly designed U.S. Solid USS-BSW00008 high-frequency inversion battery spot welder equips with the six super capacitors for energy storage and power supply for pulse welding. Unlike traditional AC transformer spot welders, it does not cause any interference to the electric circuit, eliminating tripping problems.

What is the capacitor energy storage pulse welding machine? The Glitter newly designed and patented 801/811 series product are equipped with multiple super capacitors for energy storage and power supply for pulse welding. Comparing to the traditional AC transformer spot welders, it is more powerful, stable and portable.

Description: Suggested Battery: 20-45ah battery with good performance and small internal resistance; 3.5-5.5ah 45C 3S aeromodel battery pack; 30-35ah capacity battery pack. Voltage: This circuit with a 12V battery will become an energy storage spot welding machine for welding nickel pieces. Design: The MOS upper and lower bold and tin design makes the internal ...

Capacitor Energy Storage Precise Welding Machine . The newly designed U.S. Solid USS-BSW00007 high-frequency inversion battery spot welder equips with the two super capacitors for energy storage and power supply for pulse welding. Unlike traditional bulky AC transformer spot welders, it is more portable and it does not cause any interference to ...

J: Maximum Capacitance Energy Storage. e.g.: DTR-15000. The model of Capacitance energy storage type spot and projection welder, which maximum energy storage is 15000J, is DTR-15000. Features: 1. DTR series capacitive energy storage adopted the welding manner of capacitive energy. The output current is more accurate. The impact on the power ...
