

Gaf energy timberline solar roof system

What is a GAF Timberline solar roof?

Image source: GAF Energy The GAF Timberline Solar roofing system consists of solar shingles with 45 watts of output each that are installed alongside non-solar shingles that perfectly align with their solar counterparts. The result is a roof that's built like a traditional shingle roof and also generates solar power.

What is the new timberline solar roofing system?

Solar roof technology so advanced it's simple. The NEW Timberline Solar(TM) roofing system from GAF Energy is based on innovations so advanced they make solar roofing simple. The solar shingles generate energy. And they go on like architectural shingles so you get powerful, reliable energy from a beautiful, cost-effective roof.

Does GAF energy sell solar shingles?

Instead of dealing in solar panels, which get mounted to roofs on metal racks, GAF Energy sells solar shingles, called Timberline Solar, that nail into roofs like any old asphalt shingle. The shingles sit flat against the roof, with electrical components housed in conduit on the front of each one.

Are Timberline solar shingles GAF certified?

Because Timberline Solar Shingles are installed by GAF-certified roofing contractors, customers can be assured the contractors understand both how to properly install a roof the solar shingles. As a nailable solar shingle, the product was designed to be simple for roofers to mount. Start your search for a GAF-certified contractor in your area.

What happened to GAF's Timberline solar energy shingle system?

On July 27, 2023, a recall was issued for components of GAF's Timberline Solar Energy Shingle system installed between November 2021 and April 2023. The recall was put into effect after GAF received one report of a fire and five reports of "thermal incidents" that resulted in property damages.

Does GAF energy offer solar panels?

GAF Energy only offers Timberline Solar shingles and doesn't offer solar panels. And the company technically doesn't install them. A GAF-certified contractor will be the one putting solar on your roof. You'll be able to monitor your solar roof's electricity production through the GAF Energy homeowner portal.

Timberline Solar(TM) is also the first product to attain UL 7103 certification, cementing its dual performance as both a roofing and solar system in a single product. Oh, and it's developed and assembled in the U.S., at GAF Energy's state-of-the-art R&D and manufacturing facility in San Jose, California.
