

Generator for house backup

Equipping your home with permanent backup power requires a solution as unique as your home and the way you live in it. Work with a local Authorized Generac Dealer to get a detailed estimate for a solution that's configured specifically for ...

The standby generators with the most power output are called whole-house generators because they could theoretically power your entire home if sized properly. Value - A standby generator is an investment that pays for itself every time the power goes out while simultaneously increasing the resale value of your home.

A whole-house generator, or a standby generator, is a backup electrical system that automatically supplies power to a home during a power outage. Unlike typical generators for houses powered by gas or propane, EcoFlow offers huge 90kWh capacity solar-powered solutions that keep your home running smoothly, rain or shine.
