The investment seeks to track the investment results of STOXX Global Energy Storage and Materials Index. The index measures the performance of equity securities of companies involved in energy storage solutions aiming to support the transition to a low carbon economy, including hydrogen, fuel cells, and batteries as determined by STOXX Ltd. The fund ...

Examples include alternative energy ETFs, energy storage ETFs, or solar energy ETFs. If you think that one of these industries will see growth in the future, these ETFs allow you to invest without having to pick just a few companies. These Canadian energy ETFs can be purchased just like any other publically traded stock.
