Energy Storage Report -North America Canada o Grid-connected energy storage market tracker -Country Profile (bi-annual)

The global energy storage market will continue to grow despite higher energy storage costs, adding roughly 28GW/69GWh of energy storage by the end of 2023. In gigawatt-hour terms, the market will almost double relative to 2022 installations. (In October 2022, BNEF estimated 16GW/35GWh would be installed by the end of the year.) ...

China continues to dominate BloombergNEF's (BNEF) global lithium-ion battery supply chain ranking, for the third time in a row, for both 2022 and its projection for 2027, thanks to continued support for the electric vehicle demand and raw materials investments.

The global battery energy storage market size was valued at USD 18.20 billion in 2023 and is projected to grow from USD 25.02 billion in 2024 to USD 114.05 billion by 2032, exhibiting a compound annual growth rate (CAGR) of 20.88% from 2024 to 2032.

Trina Storage is ranked among global top 5 storage providers and integrators for its solid financial position, high-quality energy storage products and services, and globally stable supply chain capability in the Energy Storage System Cost Survey 2023 report issued by BloombergNEF. The BNEF survey covers the energy storage value chain, including energy ...

The global energy storage market almost tripled in 2023, the largest year-on-year gain on record. Growth is set against the backdrop of the lowest-ever prices, especially in China where turnkey energy storage system costs in February were 43% lower than a year ago at a record low of \$115 per kilowatt-hour for two-hour energy storage systems.

Trina Storage, a leading provider of integrated energy storage solutions, has once again been recognised as a Tier 1 energy storage supplier by Bloomberg New Energy Finance (BloombergNEF). Trina Storage has made the list throughout 2024 thanks to its comprehensive capabilities and its active contributions to the global energy transition.
