

IATA lithium ion battery label

Does IATA offer a shipping lithium batteries by air course?

For proper training on dangerous goods including the Shipping Lithium Batteries by Air course, IATA offers a wide variety of safety courses to ensure you are competent in dealing with dangerous goods. This is required for all who participate in the shipping and handling of dangerous goods.

Can a label be used to identify a lithium ion battery?

Yes. The mark may bear all applicable UN numbers, e.g. UN 3091, UN 3481, to identify that the package contains lithium metal batteries packed with or contained in equipment and lithium ion batteries packed with, or contained in equipment.

Do lithium batteries need a class 9 hazard label?

Packages containing lithium batteries, or lithium batteries contained in, or packed with, equipment that meet the provisions of Section II of these packing instructions are not required to have a Class 9 hazard label and there is no requirement for a Shipper's Declaration for Dangerous Goods for consignments of these batteries.

What are the shipping requirements for lithium ion batteries?

In addition, lithium-ion cells and batteries shipped by themselves must be shipped at a state of charge not exceeding 30% of their rated capacity. Lithium batteries are dangerous goods, and all of the regulatory requirements must be complied with, as set out in the Lithium Battery Shipping Regulations.

Do lithium ion batteries have to be on a shipper's declaration?

No. For lithium ion batteries shipped in accordance with Section IA or Section IB of PI 965, which must be on a Shipper's Declaration, the Shipper's Declaration includes a certification statement "I declare that all of the applicable air transport requirements have been met."

What is a lithium ion battery?

The term "lithium battery" refers to a family of batteries with different chemistries. For the purposes of the dangerous goods regulations they are separated into two types of batteries: lithium metal and lithium-ion.

What is the difference between lithium-ion and lithium metal batteries?

When transporting electronic devices with lithium batteries, it is essential to affix a sticker to the package, with the International Air Transport Association (IATA) enforcing strict guidelines. ... These guidelines include using the IATA Lithium Batteries label and the ...
