Check out who is attending exhibiting speaking schedule & agenda reviews timing entry ticket fees. 2023 edition of Solar & Energy Storage Indonesia will be held at Jakarta International Expo, Jakarta starting on 20th September. It is a 3 day event organised by PT. Pelita Promo Internusa and will conclude on 22-Sep-2023.

EU-funded researchers demonstrated advanced thermal energy storage technology for industrial furnaces that involves phase change materials that absorb heat as they melt and release it as they solidify. Recovering waste heat and using it to preheat furnaces can increase efficiency of industrial processes by 10 %.

IDTechEx Research Article: Heating and cooling accounts for approximately 50% of global energy consumption, with 30% of this consumption represented by heating demand from industry. Given that the great majority of industrial heating processes use fossil fuels to generate heat, this has caused industrial heating processes to be responsible for ~25% of ...

The Steffes Comfort Plus Hydronic Furnace adds a new dimension to heating by blending hydronic heating with Electric Thermal Storage technology. During off-peak hours, when electricity costs and energy usage rates are low, the Steffes Hydronic furnace converts electricity into heat and stores it in specially-designed ceramic bricks located ...
