

Kyocera solar panels review

How efficient are Kyocera solar panels?

Kyocera's solar panels range in efficiency from 14.75% to 16.11%. Kyocera offers a ten-year materials warranty. Shop for Kyocera solar panels (and many other brands!) today on the EnergySage Marketplace. There are four key metrics that you should review as you evaluate solar panel quality: efficiency, performance, warranties, and price.

How much do Kyocera solar panels cost?

Get the full rundown of these panels here. All have anodized aluminum frames and sunlight-reflecting white back sheets, which helps keep temperatures down for optimal performance while producing energy. Current Kyocera installed module prices range from \$2.75-\$3.25 per watt, though installers may offer lower pricing for your solar panel system.

What makes Kyocera solar panels special?

Kyocera also coats its solar panels with a ceramic glaze which helps protect the panel glass from erosion and stains from ocean salts. Kyocera was the first company to mass produce polycrystalline solar cells using a special Edge-defined Film-fed Growth (EFG) process and export them worldwide.

Does Kyocera offer a warranty on solar panels?

A solar panel's materials warranty (sometimes referred to as the product or equipment warranty) is a guarantee from the manufacturer that they will replace your panel if it fails due to manufacturing defects or environmental issues. Kyocera offers a standard 10-year warranty against any defects in its solar panels.

Who makes Kyocera solar panels?

Kyocera was one of the first manufacturers of solar panels in the world. They have a strong reputation for research, ceramic applications, and innovation. Kyocera solar modules have a standard warranty and are offered in a variety of sizes.

How big are Kyocera solar panels?

The spec sheet can be found here. The smaller 145-watt Kyocera panels offer 36 cells per module, weigh about 28 pounds, and are about 59 inches long, 26 inches wide, and have a depth of roughly 2 inches each. Get the full rundown of these panels here.
