

Is foreign help enough to fix Iraq's energy problems?

Foreign help is not enough to fix energy issues, domestic reform is necessary. This past July, Iraq and France's TotalEnergies finalized the Gas Growth Integrated Project, a \$27 billion energy deal aimed at Iraq's natural resources and improving the country's electricity supply.

Can Iraq cut its electricity network losses?

The new IEA report, Iraq's Energy Sector: A Roadmap to a Brighter Future, maps out immediate practical actions and medium-term measures to tackle the most pressing problems in Iraq's electricity sector. The analysis finds Iraq has huge potential to cut its electricity network losses, which are among the highest in the world.

Can Iraq achieve energy self-sufficiency without regional aid?

However, the path to energy sufficiency remains a considerable challenge for Iraq even with regional aid. Without domestic reforms to address the underlying causes of the energy crisis, Iraq's journey towards achieving energy self-sufficiency is still a considerable distance away.

How GE gas power - EMEA supports Iraq's power infrastructure development?

Dr. Abdurrahman Khalidi, Chief Technology Officer of GE Gas Power - EMEA said, "We have continuously focused on supporting Iraq's power infrastructure development through end-to-end solutions- from securing financing to delivering cutting-edge technology.

How has war affected Iraq's power infrastructure?

Despite the extraordinary challenges of war in recent years, Iraq has made impressive gains, nearly doubling the country's oil production over the past decade. But the turmoil has also undermined the country's ability to maintain and invest in its power infrastructure.

How can the IEA help the Iraqi population?

Meeting the immediate needs of the Iraqi population is also imperative. In its April report, the IEA offered several recommendations to bring additional supply to Iraq quickly, efficiently and at least expense. One of the suggested actions was to explore the possibility of connecting Iraq with its neighbours to stimulate regional electricity trade.
