

Leapton energy

Who is leapton energy?

Head quartered in Japan as a world's leader in solar PV industry, Leapton Energy is specializing manufacturing high quality Tier-1 solar module. Now the products of Leapton Energy is available in more than 60 countries and regions.

How much power does leapton energy produce?

Leapton Energy produce solar modules power form 430W to 720W. 25 years products warranty, 25 years power warranty /30 years power warranty for bifacial module. Leapton Energy high-efficiency modules are installed in ground-mounted power plants, and in residential, commercial and industrial rooftop PV systems in over 60 countries and regions.

Who makes leapton solar modules?

With over 10 years of development in solar energy, Leapton Energy has built a solar module manufacture base Leapton Solar (Changshu) Co., Ltd. in Jiangsu, China. Leapton Energy produce high quality solar modules for 25 years product warranty, 25 years power warranty for standard module, 30 years power warranty for bifacial and N-type modules.

What is leapton energy warranty?

Leapton Energy produce high quality solar modules for 25 years product warranty, 25 years power warranty for standard module, 30 years power warranty for bifacial and N-type modules. Leapton can provide the most suitable modules for each solar system. Leapton Energy produce solar modules power form 430W to 720W.

How efficient are leapton solar panels?

Leapton says its new panels have a temperature coefficient of -0.30% per C and an efficiency of up to 22.65%. They come with a 30-year power output guarantee for 87.4% of the initial yield. Japan-headquartered Leapton Energy Co., Ltd. has released a new solar module based on n-type tunnel oxide passivated contact (TOPcon) technology.

What is leapton energy's new battery energy storage system?

Japan's Leapton Energy has developed a 20.48 kWh residential battery energy storage system featuring storage capacities starting at 5.12 kWh, utilising lithium iron phosphate technology. From pv magazine Global Japan-headquartered manufacturer Leapton Energy has released a new energy storage system for residential applications.

The headquarter - LEAPTON ENERGY CO., LTD is founded in Kobe, Japan in 2012. It is not only focusing on R& D and sales of the solar power system, solar modules, mounting system and ground screw in Japan, but also focusing on the development, management and after-maintenance of the solar power station.

Leapton energy

Leapton Energy is proud to announce the completion of its latest innovation in solar technology: the 182*210mm (210R) full-black solar modules. These cutting-edge modules come in two power ratings, 450W and 500W, boasting impressive conversion efficiencies of 22.52% and 22.48%, respectively. 1. LP182*210-M-48-NB 435-455W
