

Lincoln aviator phev electric energy storage mode

How much power does an aviator PHEV have?

Pitched against rivals like the Lexus RX 350, Volvo XC90 and Mercedes-Benz GLE-Class, the Aviator PHEV is packed with power, with the combined output of the gas-electric engine coming in at an eye-widening 494 horsepower. This is routed to all four wheels via a 10-speed automatic transmission and all-wheel drive, which comes standard.

Can you put a hybrid powertrain in a Lincoln Aviator?

To put a plug-in hybrid powertrain in your Lincoln Aviator means spending about \$10,000 extra compared with a similarly equipped Aviator with all-wheel drive. That's a significant amount of money, especially considering the non-hybrid version delivers its power more smoothly.

What is a Lincoln Aviator plug-in hybrid?

The Lincoln Aviator plug-in hybrid is a mid-size luxury SUV that offers three rows of seating, a long list of standard comfort features and safety equipment, plus the bonus of electric-only driving range.
