An excellent, but expensive, battery monitor. The BMV-712 is a great battery monitor that works with 12-48V lithium and lead acid batteries. It's highly customizable and accurate and it has some nice extra features. But mainly what you're paying for is the rare combo of a battery monitor that has both a screen and Bluetooth monitoring.

Lithium Battery Tracker Bluetooth Monitoring System. The Antigravity Battery Tracker monitors your vehicle battery status through your phone or tablet by using our free Battery Tracker App (iOS or Android, Bluetooth 4.0).
