Depending on the model, EcoFlow portable power stations utilize lithium-ion (Li-Ion), NCM, or lithium-ion phosphate batteries (LiFePO4/LFP). Lithium-ion and NCM batteries are robust, but none more so than the LiFePO4s, which are powerful, fast charging, and last 4-5 times longer than lithium-ion batteries.

A lithium portable power station is an excellent alternative to traditional petrol generators. Portable solar generators are quieter to run, eco-friendly and don't require fuel. They are ideal for powering devices when camping or in an emergency. The capacity of the lithium battery determines how long and how many devices can be powered.
