

London power storage cabinet tender announcement

How does the government plan to invest in LDEs in 2024?

The government has committed to put in place an appropriate policy framework by 2024 to enable investment in LDES, with the goal of deploying sufficient storage capacity to balance the overall system. This consultation seeks stakeholder views on how the government intends to deliver this commitment.

Could 20 GW of LDEs save the energy system £24 billion?

Analysis has found that deploying 20 GW of LDES could save the electricity system £24 billion between 2025 and 2050, reducing household energy bills as additional cheaper renewable energy would be available to meet demand at peak times, which would cut reliance on expensive natural gas.

How much storage capacity will Highview Power deliver?

This funding will unlock 10 GWh of storage capacity, delivering over 10% of the UK's targets for non-battery storage," said Richard Butland, CEO of Highview Power. "Our technology will be one of the first to benefit from the scheme, powering the UK to meet its 2030 targets."
