Maxwell-Boltzmann distribution curve. A Maxwell-Boltzmann distribution curve is a graph that shows the distribution of energies at a certain temperature; In a sample of a gas, a few particles will have very low energy, a few particles will have very high energy, but most particles will have energy in between

Named after James Clerk Maxwell and Ludwig Boltzmann, the Maxwell-Boltzmann Distribution describes particle speeds in an idealized gas, in which the particles rarely interact with each other except for the brief collisions where energy and momentum are affected. The distribution of a particular gas depends on certain parameters, such as the ...
