The company has launched its pilot solar photo-voltaic rooftop system in northern Luzon. The solar project, with a capacity of 550 kilowatt-peak (kWp), was installed ...

At POET, we are proud of our rural roots and are committed to cultivating the long-term success of agriculture. We are more than just a biofuel company. For over three decades, we've been bringing value to the farm by creating new markets beyond bioethanol. At POET, we maximize the output of every bushel of grain you deliver.

Mr Qiu Xin, General Manager of Tongwei Module Business, added that the company is delighted to collaborate with Menlo Electric. "Their commitment to customer satisfaction aligns perfectly with our values, and we look forward to a successful partnership contributing to the growth of the renewable energy sector" said Mr Xin.

Menlo renewable energy corp

Renewable energy generates about 20% of all electricity in the USA -- a percentage that is continually growing, according to the Office of Energy Efficiency and Renewable Energy. Looking at energy generation, 9.2% can be attributed to wind, 6.3% to hydropower, 2.8% to solar, 1.3% to biomass and 0.4% to geothermal.
