

New solar panel installer 2019 company registration in texas

Who can install solar panels in Texas?

Anyone who performs or offers to perform the installation of solar panels (also called photovoltaics) or perform maintenance on solar panel systems or photovoltaics in Texas must be a Texas Electrical Contractor licensed by the Texas Department of Licensing and Regulation (TDLR) and using Texas-licensed electricians.

How much does it cost to install solar panels in Texas?

Transitioning to solar energy helps combat climate change, reduce air pollution, and even conserve water resources. The cost to install solar panels in Texas can range from \$15,000 to \$30,000 for a typical residential system, depending on the size, type of panels, and installation.

Can a company sell a solar panel system without a license?

A company can sell a solar panel system without holding an electrical license from TDLR, but the homeowner or business owner would need to find a licensed electrician to do the installation. Do not hire an unlicensed solar installer or unlicensed electrician to install your panels - your safety depends on it!

What financing options are available for solar installations in Texas?

However, financing options for solar installations in Texas include: Taking out a solar loan. A solar loan lets you buy the solar panel system outright, then make monthly payments on the loan. The average payback period for a solar loan is around 10 years.

Do you need a license to install solar panels?

Do not hire an unlicensed solar installer or unlicensed electrician to install your panels - your safety depends on it! Licensed electrical contractors must either hold a license as a master electrician or employ a master. They are required to carry insurance, which protects you as a consumer on completed jobs.

Do utility-sponsored Solar PV programs require a license?

Utilities and their program implementers are not required to, and generally do not enforce licensing requirements, and registration with a utility-sponsored solar PV program does not affect eligibility to apply for a Master Electrician's or Electrical Contractor's license.
