

Portable photovoltaic chargers

What are portable solar panels & solar battery chargers?

Portable solar panels and solar battery chargers are easy-to-use devices that provide backup power to anyone who happens to be away from a working power outlet, including hikers, car campers, and even people looking to keep their devices running during a power outage at home.

What is the best portable solar charger?

Of the smaller panels, the BigBlue SolarPowa 28 is the top dog of portable solar chargers. The BigBlue is impressively efficient in its charging capabilities and performed the best in all our testing of portable solar panels. This model is the fastest portable model we tested, and it delivers consistent charging even as conditions change.

Can a solar battery charge a portable power station?

Some of the higher-wattage models can help keep a portable power station charged, for running appliances like mini-fridges, lights, or air conditioners. Consumer Reports recently evaluated solar battery chargers and portable solar panels from a number of popular manufacturers, including Jackery, Allpowers, Renogy, and BigBlue.

Should you buy a portable solar battery charger?

A portable solar battery charger is a great option if you're taking an extended camping trip or traveling somewhere with an unreliable power grid, as it'll allow you to charge a phone the size of an iPhone 15 using just a few hours of midday sun.

Are portable solar charges a good idea?

Portable solar charges are also perfect for hikers and campers who want to keep their devices -- smartphones, GPS watches, flashlight and headlamp or any of the other tech gear that makes its way into the outdoors these days -- charged, whether they get lost or injured, or just end up extending an adventure for longer than expected.

Portable solar chargers are typically designed to fold for storage, making them easy to keep around in a bag, seat-back pocket or emergency kit while still providing a large enough surface area to capture sufficient solar energy to produce electricity. This all means a portable solar charger is an extremely valuable addition to your emergency kit.
