

## Power dock backup

What is the PD-2537U3 Power Dock?

The PD-2537U3 power dock from KWI Technology Inc is innovative in maximum performance and allows for data transfer in only one-tenth of the time used by a USB 2.0 interface. 10 TB SATA HDD drives can be connected to this docking station.

Can a docking station Power a laptop?

Docking stations are capable of powering more than just your laptop. The host ports on docking stations can also power connected downstream peripheral devices, such as smartphones, tablets, thumb drives, and external hard drives.

How do I connect a hard drive to a dock?

Flip the power switch located on the rear side of the dock. The LED indicator will light up and the hard drives will be powered up. Your computer will automatically detect the newly connected device and drives. It may need a minute or two to install the necessary drivers. The Dock uses drivers that are already built into your OS.

How do I remove a hard drive from the dock?

Flip the power switch located on the rear side of the dock to the off position. It is now safe to remove the hard drives from the dock. Press down on the disk eject button to release the hard drive from the dock.

What is a power pass through Docking Station?

Essentially, when the docking station is connected to the wall outlet, it allows power to "pass through" it to charge the other devices. Power pass-through is beneficial because it allows you to use one power outlet to charge multiple devices.

How much power does a Thunderbolt 3 & 4 Docking Station provide?

Thunderbolt(TM) 3 and Thunderbolt(TM) 4 docks offer excellent power delivery--up to 100W of bi-directional power to compatible devices. When you connect a Thunderbolt(TM) docking station to a compatible laptop, the battery in the laptop can be charged directly through the Thunderbolt(TM) cable--eliminating the need to plug in a separate power adapter.

The EZ-Dock also provides LED indicators for Power status and HDD Data access. (NOTE: It is important not to unplug the drive or the EZ-Dock while the Data LED is blinking.) The EZ-Dock also comes with a One Touch Backup button which when pressed will automatically run the EZ-Dock backup software from your computer.

The charge-and-&#226;EUR(TM)s removable docking system provides both portrait and landscape orientations, allowing full access to the phone-&#226;EUR(TM)s applications while charging. Easy to

## Power dock backup
