\*Prices reflect the federal tax credit but don't include solar panels, which you'll need to keep your battery charged during an outage. The difference between whole-home and partial-home battery backup systems is pretty self-explanatory: Whole-home battery backup systems can power your entire home in the event of an outage, whereas partial-home setups ...

Gryffindor is arguably the most focused-on house in the Harry Potter series and gets the most page time devoted to explaining the story of its foundation and culture. This makes sense, considering the three main characters of the series are all sorted into Gryffindor. However, among the series' fans, surprisingly few people are sorted into Gryffindor House, making it ...

Hiding in plain sight to provide energy and light! That's not Toronto Hydro's motto but it could be - for the better part of a century, the Canadian utility's policy was to design hundreds of electrical substations so that they would "blend in" with their surrounding neighborhoods. Though many have been decommissioned, many more remain.
