

Power systems fitness deck review

What can I do with the power systems deck?

HOME & GYM WORKOUTS: Upgrade your home gym with this fitness Powerhouse. Use the deck as a basic 8-inch aerobic step, add plyometric challenge by raising it to 14 inches, or use it as an inclined or declined weight bench for strength training. **QUICK TRANSITIONS:** The Power Systems deck has more than a dozen positions to suit any workout.

What is a Reebok fitness deck?

Here's our process. The Reebok Fitness Deck is a versatile workout bench with 16 different types of configuration, including incline, decline, and a flat workout bench. It features a simple lock-foot adjustment, allowing the user to adjust to two different levels for workouts on a non-slip sweat-resistant surface.

How do you use a gym deck?

When you are done with your training, just pop it open and stash in your accessories to keep your gym tidy. The Deck can be configured in 16 different styles, including a flat, inclined, or decline weight bench to add some resistance to the workout and build more strength.

Is a step deck good for low impact aerobics?

The Deck can be configured in 16 different styles, including a flat, inclined, or decline weight bench to add some resistance to the workout and build more strength. The Deck's 20.5cm height makes it a good Step-deck for your low impact aerobics.

Why should you buy a Gym incline deck?

You don't have to worry about the storage for your dumbbells and other workout accessories; the Deck features a secret compartment that doubles as an incline. When you are done with your training, just pop it open and stash in your accessories to keep your gym tidy.

How much weight can a plastic deck withstand?

STABLE & WELL-MADE - the sturdy, dense plastic deck Can withstand up to 330 lbs of weight. When set at the highest configuration, rubber feet keep the legs in place, so it won't move while in use. The surface is non-slip, textured rubber.
