John R. Crockett III. Crockett was named to his position in October 2021. As president and chief development officer, he is responsible for all matters of LG& E and KU Energy and is focused on state and federal government affairs, rates and regulatory strategy, local communications, stakeholder engagement and driving economic development and growth in our communities.

Joint initiative aimed to facilitate the increasing adoption of renewable generation while maintaining focus on grid safety and reliability San Ramon, California, November 13, 2018 - PPL Electric Utilities and GE Power Digital announced a joint initiative to develop and test software to manage and control electricity from renewable and stored energy sources.

We have information here about starting or moving electric service, as well as establishing temporary electric service for use during construction. We also provide our Rules for Electric Meter and Service Installations (REMSI) for builders and contractors.

The investment supports Aspen's organic and acquisition-driven growth strategy targeting the community, multifamily, and commercial & industrial ("C& I") solar and storage markets. To launch this strategy, Aspen has acquired Safari Energy, LLC ("Safari") from PPL Corporation (NYSE: PPL).

The Alternative Energy Portfolio Standards Act of 2004 requires 18 percent of electricity sold to Pennsylvania retail customers to come from renewable and advanced energy sources within 15 years. In the absence of compulsory state regulations, the Pennsylvania Game Commission developed a Wind Energy Voluntary Cooperative Agreement with wind ...

16. Will my project produce alternative energy credits that I can sell separately? Energy credits are based on energy produced by the generator. To get one credit, your generator must produce at least 1,000 kWh. 17. Are RTS customers eligible for net metering? RTS customers are not eligible for net metering, meaning they are not paid for

Ppl renewable energy llc

US energy company PPL Corp (NYSE:PPL) will offload its subsidiary PPL Safari Holdings LLC, which runs a business dedicated to the acquisition, development and management of solar projects in the commercial and industrial (C& I) sector.

ALLENTOWN, Pa., Sept. 11, 2023 /PRNewswire/ -- PPL Corporation (NYSE: PPL) today announced that it has published three years of audited annual financial statements for The Narragansett Electric Company, a PPL subsidiary doing business as Rhode Island Energy (RIE). The financial statements for fiscal years ending Dec. 31, 2022, 2021 and 2020 have been ...

PPL measures how much electricity we deliver to you, and how much we receive from you. Even if you return more electricity to the grid than you use, you will still receive an electric bill for basic electric service. How you are compensated depends on your electricity supplier.

Talen Energy is an independent power producer founded in 2015. It was formed when the competitive power generation business of PPL Corporation was spun off and immediately combined with competitive generation businesses owned by private equity firm Riverstone Holdings. Following these transactions, PPL shareholders owned 65% of Talen's common ...

Island achieve its ambitious clean energy goals, which include 100% renewable energy by 2030 and net-zero economy-wide carbon emissions by 2050. In summary, we're proud of what our team of talented employees accomplished in 2021 as we laid a foundation for growth and success and returned \$2.3 billion to shareowners

PPL's strategy also incorporates smart grid technology on the transmission and distribution grid to reliably and efficiently integrate distributed energy resources, including renewable generation and energy storage. PPL's 2021 Climate Assessment Report contains a comprehensive analysis of our climate risks and opportunities,

We're also testing technologies to further advance renewable energy integration and investing in grid modernization projects. One such project, led by our PPL Research and Development team, is testing new, high-efficiency 360-degree tracking solar panels in Kentucky. These multi-axis tracking panels follow the sun as it moves through the sky.

Key Factors Impacting Earnings. In addition to the segment drivers outlined below, PPL's reported earnings in the first quarter of 2024 included net special-item after-tax charges of \$95 million, or \$0.12 per share, compared to net special-item after-tax charges of \$67 million, or \$0.09 per share, in the first quarter of 2023. In both cases, special items were primarily ...

Ppl renewable energy llc

Across our PPL family of companies, we're investing in grid modernization to strengthen grid reliability and resiliency for our customers and advancing a cleaner energy future without compromising on affordability. It's part of our overall plan to invest \$12 billion from 2023 through 2026 across our Kentucky, Pennsylvania, Rhode Island and Virginia operations in ...

The Federal Energy Regulatory Commission (FERC) approved the expansion plan in an order amending the project operating license, held by Bear Swamp Power Co. LLC. The project features the 600-MW pumped-storage plant and a second plant, 10-MW Fife Brook. Bear Swamp Power Co. LLC is a joint venture of Brookfield Renewable Power and Emera Inc.

PPL CORPORATION, PPL RHODE ISLAND HOLDINGS, LLC, NATIONAL GRID USA, and THE NARRAGANSETT ELECTRIC COMPANY Docket No. D-21-09 ... Renewable Energy Connection - The online portal allows customers to apply to interconnect the DER Management Devices with the distribution system.

Key Factors Impacting Earnings. In addition to the segment drivers outlined below, PPL's reported earnings in 2023 included net special-item after-tax charges of \$443 million, or \$0.60 per share, primarily attributable to integration and related expenses associated with the acquisition of Rhode Island Energy, as well as the Talen litigation settlement.

Our strategy delivers competitive long-term earnings per share and dividend growth with significant investment opportunities to drive a clean energy future. We have one of the strongest balance sheets in the U.S. utility sector, uniquely positioning PPL with financial flexibility and a runway to fuel growth without any equity issuances for the ...
