

REFUsoL 40K /46K String Inverter for large PV systems UltraEta[®]; Topology Natural convection cooling Cloud-based monitoring Performance and reliability are what counts in large PV systems. The second generation of the string inverter REFUsoL 40K/46K offers both. With up to 46 kVA output power for medium voltage feed-in and its patented

REFUsoL 20K. REFUsoL 25K. REFUsoL 33K. REFUsoL 50K. REFUsoL 110K. REFUsoL 125K. ... every day. The combination of a PV or a Battery-Storage installation and a REFU Inverter will allow you to cover your energy requirement with self-produced and clean energy. ... This means for you an easy serviceability and reduction in balance of system (BOS ...

REFUsoL 08K ... 23K The new generation Future-proof Worldwide use Flexibly decentralized ... Max. short circuit current ISC of PV system (A) 50 MPP trackers 1 No. DC inputs 6 x Plus, 6 x Minus Phoenix Sunclix AC DATA AC nominal power (kW) 8.25 10 13 17 20 23 AC grid connection L1, L2, L3, N, PE

Test Model No.: REFUsoL 20K-2T, REFUsoL 25K-2T, REFUsoL 30K-2T, REFUsoL 33K-2T Applicant: REFU Elektronik GmbH Marktstrasse 185, 72793 Pfullingen, Germany ... Safety of power converters for use in photovoltaic power systems - Part 1: General requirements IEC 62109-2:2011 Safety of power converters for use in photovoltaic power systems -

For photovoltaic systems on commercially used buildings or for free-field installations, Refusol GmbH offers corresponding large inverters. These are suitable for outdoor use. Their compact design and easy installation of the devices significantly reduce the construction costs of ...

Technical datasheet Electrifying Innovations Gather, process and analyze data Integrated data-logger Unlimited number of inverters Plug & play User-Friendly monitoring portal rePulog To be able to provide pertinent information on the yields and cost-effectiveness of a PV system, the relevant operating data has to be captured and analyzed.

Service Request. ... PV systems, also known as solar power systems, convert sunlight directly into electrical energy. They consist of solar cells integrated into ...

levels. In case of doubt, before the installation the existing PV and the heating system, as well as the hot water storage is to be checked by a recognized professional. 2.2 Appropriate use AE PV Heater should be used only with AE PV heating element that is delivered. WARNING Danger of infection through insufficient disinfected water.

The innovative REFUsol 20K inverter offers a modern solution for commercial and industrial PV systems. With its 2 MPP trackers, it enables flexible adaption to different system designs and individual requirements. Its compact design and high power density per weight make it extremely versatile, whether on roofs or in ground-mounted systems.

The completely new REFUsol inverter is developed for a maximum of flexibility in commercial and industrial PV systems. With two MPP trackers, each system design can be realized, including different orientations and tilts. Compact dimensions paired with a high power density per weight gives more installation location flexibility - on the ...

Der REFUsol 08K ... 23K String-Wechselrichter, in dieser Bedienungsanleitung auch Wechselrichter genannt, ist ein Solarwechselrichter, der den vom PV-Generator (Photovoltaik-Module) erzeugten Gleichstrom in Wechselstrom umwandelt und diesen dem öffentlichen Stromversorgungsnetz zuführt.

The innovative REFUsol 25K / 33K inverter offers an advanced solution for commercial and industrial PV systems. With its 3 MPP trackers, it can be adapted to different system designs and individual requirements. Thanks to its compact design and high power density per weight, it is extremely versatile, whether on the roof or in ground-mounted ...

The system is thus compatible with any photovoltaic system with inverters or components from REFUsol, only an Internet connection via LAN or WLAN is required. This has the advantage that you do not need any direct cabling between the inverter ...

IA_REFUSOL 12-24K-UL_V02.2_EN-US 1 Important safety instructions for the REFUsol Solar Inverter ... The REFUsol solar inverter is a ready-for-connection inverter unit for photovoltaic systems. All other applications are regarded as non-specified use and therefore prohibited. The manufacturer shall not be

PV systems. The new string inverter REFUsol 40K/46K offers both. It is available in two performance classes: With 40 kW for 400 VAC voltage and with 46 kW for 460 V AC voltage. The REFUsol complies with protection class IP65, is passively cooled and as such requires no maintenance - a reliable partner for decentralized ...

Find out all of the information about the Refusol product: sensor . Contact a supplier or the parent company directly to get a quote or to find out a price or your closest point of sale. ... more precisely and detect faults more quickly of your PV system Robust and weatherproof Extended measuring range up to 1,500 W/m² ...

The REFUsol solar inverter is a ready-for-connection inverter unit for photovoltaic systems. All other applications are regarded as non-specified use and therefore prohibited. The manufacturer shall not be ... The associated REFUsol/system must only be set up and operated in conjunction with this documenta-

Refusol photovoltaic system

A photovoltaic system, also called a PV system or solar power system, is an electric power system designed to supply usable solar power by means of photovoltaics. It consists of an arrangement of several components, including solar panels to absorb and convert sunlight into electricity, a solar inverter to convert the output from direct to alternating current, as well as ...

The completely newly developed REFUsol 350K inverter has been specially designed for maximum flexibility in industrial utility PV systems. With its 8 MPP trackers, it enables the realization of a wide variety of system designs. Each inverter can be individually connected via the REFUlog portal for remote monitoring. During the 10-year warranty

PV system in smart grids or the regulations change - the new software means you're well equipped for the future. ... REFUsol 08K 867P008.010 REFUsol 10K 867P010.010 REFUsol 13K 867P013.010 REFUsol 17K 867P017.010 REFUsol 20K 867P020.010 REFUsol 23K-MV 867P023.010 DC DATA

maximum of flexibility in commercial and industrial PV systems. With three MPP trackers, each system design can be realized, including different orientations and tilts. Compact ... The power for mid-size PV plants 20210901_REFUsol 50K-3T_Datasheet_EN_V08. TECHNICAL DATA Technical Data Art. No. 50K-3T 851P050.300 DC DATA Max. recommended PV ...
