

Ring solar power

How does the ring spotlight solar panel work?

The Ring Spotlight Solar Panel provides non-stop solar power for your Ring Spotlight Cam Battery or Stick Up Cam Battery. With just a few hours of direct sunlight everyday, your Cam will stay charged around the clock. Spotlight Solar Panel includes a free toolkit and micro-USB cord, so you can get everything setup in just a few minutes.

Can the ring solar panel charge other than ring devices?

A: Hi sfmwh. Thank you for asking! No, the Ring Solar Panel is not designed to charge anything other than Ring devices. The Ring Solar Panel is a small device that can be mounted outdoors and connected to your Ring Stick Up Cam or Ring Spotlight Cam with a micro-USB cable.

How do I connect a solar panel to my ring spotlight Cam?

Simply connect the Solar Panel to your Spotlight Cam Battery with the included micro-USB cord, and secure it with the adjustable mounting bracket. It's that simple. Get non-stop solar power for your Ring Spotlight Cam Battery and Stick Up Cam Battery. Keep your Cam charged around the clock with just a few hours of direct sunlight everyday.

Does ring stick up camera have a solar panel?

Protect your home with Ring Stick Up Camera Battery. The wireless outdoor security camera comes with a Solar Panel to keep the wifi camera charged for longer.

Can I use a ring solar panel with a security camera?

Add an extra 3 metres of cable length to help your Solar Panel stay connected to your Security Camera whether it's up high, around a corner, or wherever it can get the most sun. For use with compatible Ring Solar Panels and Security Cameras only. Not recommended for use with other products.

Why do ring solar devices need a lot of sunlight?

Ring solar products require direct sunlight to stay charged and provide power to the device. If the weather is cloudy or it rains/snows, this would limit the direct sunlight your device receives, which would lessen the charge. Colder temperatures may also cause excessive drain to your device's lithium-ion battery.

Stay charged longer by connecting your Solar Panel to any Ring USB-C Security Camera. Get the perfect angle with the adjustable arm to maximize your solar power—and keep your setup tidy with built-in cable management. For best performance, Ring recommends at least 2-3 hours of direct Sunlight per day.
