

Rondo Energy makes industrial decarbonization possible -- and profitable -- today. The Rondo Heat Battery captures low-cost renewable electricity and delivers the world's highest temperature, highest efficiency energy storage of any kind, enabling customers to power their operations with zero-carbon energy. Learn more at [rondo](#) .

Rondo Energy is a multidisciplinary technology leader solving the world's most difficult decarbonization challenges. Engineering Careers Our engineering and R& D teams utilize low-cost, durable, proven materials in a brand new way to help customers dramatically reduce their operating costs and carbon footprint.

Slingshot-level acceleration is not an exaggeration. Rondo raised its \$ 22 million Series A in February 2022, led by Breakthrough Energy Ventures and Energy Impact Partners only has one commercial installation operating right now, ...

Rondo Energy have recently received millions of dollars in investments for their thermal battery which uses superheated bricks. When heating is required, they make much more sense than lithium-ion batteries as they are cheaper, use no critical materials, last longer, and are just as efficient! Therefore, the Rondo heat battery can end battery ...

In June 2023, Rondo Energy announced its intention to scale the annual production of its "Heat Batteries" to 90GWh. Image: Rondo Energy. Portugal-based energy company EDP has partnered with zero-carbon heat and power provider Rondo Energy to electrify industrial heat using thermal energy storage.

Rondo Energy General Information Description. Provider of renewable energy management products and services intended to make industrial decarbonization possible. The company captures low-cost renewable electricity and delivers continuous high-temperature heat, enabling clients to power their operations with zero-carbon energy.

Rondo Energy, and SCG Cleanergy, a wholly owned subsidiary of Siam Cement Group (SCG), announced that the companies have begun construction of a Rondo Heat Battery (RHB) in Thailand. Rondo Heat Batteries capture intermittent electricity, store energy as high temperature heat in brick, and deliver continuous industrial heat and power on demand ...

About Rondo Energy. Rondo Energy makes industrial decarbonization possible -- and profitable -- today. The Rondo Heat Battery captures low-cost renewable electricity and delivers the world's highest temperature, highest efficiency energy storage of any kind, enabling customers to power their operations with zero-carbon heat and power.

Rondo energy

The funds, which will help Rondo Energy develop and build storage projects around the world, were provided by several investors, such as Microsoft, Rio Tinto, Aramco Ventures, and SABIC. "We are honored and excited by this opportunity to go faster by working with these leaders.

Rondo Energy has successfully raised \$60 million in financing to advance the rollout of its Rondo Heat Batteries on a global scale. The funds, which will help Rondo Energy develop and build storage projects around the world, were provided by several investors, such as Microsoft, Rio Tinto, Aramco Ventures, and SABIC. "We are honored and excited by this ...

Rondo Energy makes industrial decarbonisation possible - and profitable - today. The Rondo Heat Battery captures renewable electricity to deliver low-cost, zero-carbon and continuous high-temperature heat for industry. In essence, it's a toaster heating bricks to help decarbonize heavy industries like steel, cement, aluminium and biofuels.

Thermal energy storage company Rondo Energy has completed a US\$60 million fundraising round from investors including Rio Tinto, Microsoft, Aramco and Energy Impact Partners. The funding, announced yesterday (16 August), was provided by existing investors Breakthrough Energy Ventures, Energy Impact Partners, SCG, and TITAN as well as new ones.
